Poway Unified School District

SCHOOL PSYCHOLOGY INTERNSHIP PROGRAM

Poway Unified School District is the national leader in K-12 public education serving over 36,000 students of high diversity in culture, ethnicity, language, and socio-economic status. We are the third largest district in San Diego County with 25 Elementary Schools, 1 K-8 School, 7 Middle Schools, 5 High Schools, and varied alternative programs.

Internships are based on the guidelines set forth by the National Association of School Psychologists (NASP). PUSD provides interns the opportunity to work with a variety of student populations and perform a wide range of school psychologist duties in order to meet their university requirement and obtain the Pupil Personnel Services Credential. Interns are assigned at both elementary and secondary levels, allowing for supervision of two school psychologists throughout the year.

Internship Information

Janice Gapasin, Psy.D.

Lead Psychologist
